

Dedicated Filtration System Model 165-400

The Model 165-400 excels in applications with large contaminants. A filter-bag removes large particles before the COMO Filter polishes the fluid to any cleanliness level you desire. Each COMO Filter holds up to 20 pounds of dirt and 1 gallon of water, so you can extend fluid life and improve machine performance with fewer filter changes.

THIS PRODUCT FILTERS

- Cutting oil
- Grinding oil
- Diesel fuel
- Drawing oil
- Quench oil
- Hydraulic oil
- Gear oil
- Lube oil
- Many other industrial fluids

SPECIFICATIONS

- One C-1000 chrome-plated depth-filter housing
- One CB-400 chrome-plated bag-filter housing with basket
- 1 or 3 GPM iron gear pump with Buna-N mechanical seals
- 3/4 HP, 115 V, single-phase, 60 Hz, 1725 RPM, TEFC motor
- Freestanding, powder-coated frame
- Dimensions: 24" W x 20" D x 44" H
- Approximate weight: 160 lbs.

STANDARD FEATURES

- Toggle switch motor starter
- Pressure gauge to monitor filter element life
- Vacuum gauge to monitor filter bag life
- Stainless-steel element lifter
- Frame with bolt holes for floor mounting capability
- Inlet wye strainer to protect pump
- Internal pressure relief in pump

**Don't let particulate & water contamination shorten the life of your oil.
Minimize oxidation and fluid breakdown by using a COMO Model 165-400.**
