

## Model 122: Quad Filter

**This filtration system excels at filtering Hydraulic oil, Lubricating oil, Water-Glycol fluid, and Ester Base fluid but allows for either higher viscosity fluids or a higher flow rate than the Model 120. See more applications below.**

With the use of COMO's patented Depth Filters, the COMO Model 122 Portable Filtration Cart extends fluid life which, in turn, extends machine life. Our system removes up to one gallon of water per element and particulate contamination down to one micron or finer.

Save money with the COMO Model 122 by minimizing machine downtime and repair, and by reducing fluid disposal and replacement costs!

### **COMO Model 122 specifications:**

- Two C-1002 filter housing (equivalent of four C-1000 housings)

- 5, 7, or 11 GPM positive displacement gear pump

**The COMO Model 122 can help you solve the following problems:**

- System failure
- Machine malfunction
- Contaminants in oil
- Moisture in oil
- High fluid replacement costs
- High fluid disposal costs
- Service outages

**The COMO Model 122 provides:**

- Quick and continuous oil filtration
- Ultra-fine contamination control down to one micron or finer
- Water removal of up to one gallon per element
- Easy movement from job to job
- Fully automatic operation

**The COMO Model 122 standard features include:**

- Pressure gauge to monitor element condition
- Inlet wye strainer to protect pump
- Pressure switch with Hi/Low shut off for unattended operation
- Fluid transfer feature with or without filtering
- Flow regulating loop to adjust flow of high viscosity oils through filter
- Power and run indicators
- Stainless steel element lifter
- 115 VAC, 60 Hz, TEFC, 1725 RPM motor

**Additional options available for the COMO Model 122:**

- Motor in any voltage or phase
- Alternative pump (centrifugal or air diaphragm)
- Stainless steel, chrome-plated, blue powder coat, or electro-polished finish

**The COMO Model 122 filters:**

- Hydraulic oil
- Lubricating oil
- Water-Glycol fluid
- Ester Base fluid
- Transformer oil
- Vacuum Pump oil
- Quench oil
