

FISCHER-ROBERTSON, INC.
 FILTRATION & SEPARATION

COMPRESSED AIR & VACUUM FILTRATION

Filter Vessels & Elements

- Particle Removal Filter
- Coalescing Element
- Bulk Water Separation
- Adsorption Element
- Breathing Air Purifiers
- High Pressure Vessels
- Exhaust Coalescing Silencers

Installed Accessories

- Auto Drain
- DP / Service Gauge

Large Capacity Filter Vessels & Elements

- Compressed Air System Protection
- Dryer Protection - Mist Eliminator
- Sterile Air Pre-Filtration
- Landfill Gas Filtration
- Odor Removal

Coalescing Debris Removal Absorption

Compressed Air Dryers

Heatless Regenerative Desiccant Dryers
 Heat Regenerative Adsorption Dryers
 Membrane & PSA Technologies
 Point of Use Air Dryers

- Food Processing & Automation
- Electronics / Dry Boxes
- Critical Pneumatic Valves
- Protection of Pneumatic Instrumentation
- Low Dewpoint Instrument Air
- Pressurizing Electronic Cabinets
- Dry Air for Hazardous Areas
- Protection for Pneumatic Tools and Equipment

Vacuum Intake & Exhaust Filters

- Low Pressure Drop
- Max Surface Area & Dirt Holding
- Easy Access Swing Bolt Closure
- Auxiliary Pressure & Drain Ports
- Flanged or Threaded Connections
- Material & Coating Options
- Custom Knock-Out Pots
- ASME Code

After Market Filter Cartridges
