Hogs Hair

Rigid Synthetic Air Filter Media

- Excellent alternative to disposable panel filters
- Cut-to-size, more durable, easier to handle and install
- High dust-holding capacity
- Washable, for repeat use

Specialty Media

Specialty media

- **Koch Filter** offers many air filtration accessories and medias for specialized applications.

Super Grade Fiberglass Pads and Rolls

Supergrade Fiberglass Air Filter Media for Air Filtration Systems

- **Koch Supergrade Fiberglass** Air Filter Media is available in a wide range of pad and roll sizes.
- Because all air filtration systems are different, one standard media cannot meet every requirement.
- With three media depths to choose from, it is possible to find the right media for any fiberglass application.

Synthetic Media Pads

Synthetic Air Filter Media for Air Filtration Systems

- This broad spectrum of products is designed for use in Koch Pad Frames, and is also available in bulk rolls for customers preferring to cut their own pads.
- Koch **Synthetic Air Filter Media** is primarily used as a prefilter for more expensive final filters, often extending the life-cycle of these final filters by 50% or more.
- Other popular applications include gas turbine air intake systems, commercial/industrial central air handlers, unit ventilators, fan coil units, or any system where fiberglass or other filtering materials are not preferred.

Synthetic Media Rolls

Synthetic Air Filter Media for Air Filtration Systems

- This broad spectrum of products is designed for use in Koch Pad Frames, and is also available in bulk rolls for customers preferring to cut their own pads.
- Koch **Synthetic Air Filter Media** is primarily used as a prefilter for more expensive final filters, often extending the life-cycle of these final filters by 50% or more.
- Other popular applications include gas turbine air intake systems, commercial/industrial central air handlers, unit ventilators, fan coil units, or any system where fiberglass or other filtering materials are not preferred.
